# Material Safety Data Sheet

**Antifoam Defoamer Elite M8** (RXSOL-16-2066-200)

## 1. Product and Company Identifaction

| | |
|---|---|
| Product Name | RXSOL-16-2066-200 |
| Product Type | Antifoam Defoamer Elite M8 |

**Company Details:**

RX MARINE INTERNATIONAL
105, A wing , BSEL , TECH PARK.
VASHI ,NEW BOMBAY 400703 INDIA

STOCK Point ::: Fujairah, Mumbai, Chennai, Kandla, Kolkata, Visakhapatnam, Fujairah, Muscat, Kenya, Canada

| | |
|---|---|
| Phone | +91 22 65113333 / 5555 / 9999 / 27611360 |
| Fax | +91 22 2781 1318 :::AOH :0091 9821214367 |
| Email | mail@rxmarine.com |

## 2. Composition / informationon ingredients

| Name | CAS number | % |
|---|---|---|
| Polyether Polyol | 9003-11-6 | 60 - 80 |
| Proprietory Blend | ------- | 20 - 40 |

## 3. Hazards Identification

| | |
|---|---|
| Physical state | Liquid. |
| Odor | Faint odor. |
| Color | Clear. |
| OSHA/HCS status | While this material is not considered hazardous by the OSHA Hazard Communication tandard (29 CFR 1910.1200), this MSDS contains valuable information critical to the safe handling and proper use of the product. This MSDS should be retained and available for employees and other users of this product. |
| Emergency overview | CAUTION!<br>MAY CAUSE EYE IRRITATION.<br>Avoid breathing vapor or mist. Avoid contact with eyes. Wash thoroughly after handling. |
| See toxicological information (Section 11) | |
| GENERAL INFORMATION | Read the entire MSDS for a more thorough evaluation of the hazards. |

## 4. First Aid Measures

| | |
|---|---|
| Eye contact | Check for and remove any contact lenses. Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention immediately. |
| Skin contact | In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothing before reuse. Clean shoes thoroughly before reuse. Get medical attention immediately. |
| Inhalation | Move exposed person to fresh air. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. Loosen tight clothing such as a collar, tie, belt or waistband. Get medical attention immediately. |
| Ingestion | Wash out mouth with water. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical attention immediately. |
| Notes to physician | No specific treatment. Treat symptomatically. Call medical doctor or poison control center immediately if large quantities have been ingested. |

## 5. Fire-fighting Measures

| | |
|---|---|
| Flash point | Closed cup: 229.4°C (444.9°F) |
| Hazardous thermal decomposition products | No specific data. |
| Extinguishing media | |
| Suitable | Use an extinguishing agent suitable for the surrounding fire. |
| Not suitable | None known. |
| Special exposure hazards | Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. |
| Special protective equipment for fire-fighters | Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. |

## 6. Accidental Release Measures

| | |
|---|---|
| Personal precautions | No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment (see Section 8). |
| Environmental precautions | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). |
| Methods for cleaning up | Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see section 1 for emergency contact information and section 13 for waste disposal. |

## 7. Handling and Storage

| | |
|---|---|
| Handling | Put on appropriate personal protective equipment (see Section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container. |
| Storage | Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. |

## 8. Exposure controls and personal protection

| | |
|---|---|
| Recommended monitoring procedures | If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. |
| Engineering measures | No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants. If this product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits. |
| Hygiene measures | Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. |
| Personal protection | |
| Respiratory | In case of inadequate ventilation wear respiratory protection. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. |
| Hands | Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. |
| Eyes | Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists or dusts. |
| Skin | Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |
| Environmental exposure controls | Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels. |

## 9. Physical and chemical properties

| | |
|---|---|
| General information | |
| Appearance | Clear to Pale Yellow |
| Physical state | Liquid. |
| Color | Clear. |
| Odor | Slight |
| Important health, safety and environmental information | |
| Boiling/condensation point | >35°C (>95°F) |
| Melting/freezing point | Not available. |

| | |
|---|---|
| Flash point | Closed cup: 229.4°C (444.9°F) |
| Flammable limits | Not available. |
| Auto-ignition temperature | Not available. |
| Vapor pressure | Not available. |
| Specific gravity | 1 |
| Partition coefficient: noctanol/ water (log Kow) | Not available. |
| Viscosity | Kinematic: 1.75 cm2/s (175 cSt at 40°C) |
| Evaporation rate (butyl acetate = 1) | Not available. |

## 10. Stability and reactivity

| | |
|---|---|
| Chemical stability | The product is stable. |
| Hazardous polymerization | Under normal conditions of storage and use, hazardous polymerization will not occur. |
| Conditions to avoid | No specific data. |
| Materials to avoid | isocyanate |
| Hazardous decomposition products | Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

## 11. Toxicological information

Potential acute health effects

| | |
|---|---|
| Inhalation | No known significant effects or critical hazards. |
| Ingestion | No known significant effects or critical hazards. |
| Skin contact | No known significant effects or critical hazards. |
| Eye contact | Slightly irritating to the eyes. |
| Potential chronic health effects | |
| General | No known significant effects or critical hazards. |
| Target organs | No known significant effects or critical hazards. |
| Carcinogenicity | No known significant effects or critical hazards. |
| Mutagenicity | No known significant effects or critical hazards. |
| Teratogenicity | No known significant effects or critical hazards. |
| Developmental effects | No known significant effects or critical hazards. |
| Fertility effects | No known significant effects or critical hazards. |
| Medical conditions aggravated by over-exposure | |

## 12. Ecological information

| | |
|---|---|
| Environmental effects | No known significant effects or critical hazards. |
| Other adverse effects | No known significant effects or critical hazards. |
| Other ecological information | |
| BOD5 | Not determined. |
| COD | Not determined. |
| TOC | Not determined. |

## 13. Disposal considerations

| | |
|---|---|
| Waste disposal | The generation of waste should be avoided or minimized wherever possible. Significant quantities of waste product residues should not be disposed of via the foul sewer but processed in a suitable effluent treatment plant. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. |

Disposal should be in accordance with applicable regional, national and local laws and regulations.

## 14. Transport information

Proper shipping name

| | |
|---|---|
| DOT | Not regulated. |
| TDG | Not regulated. |
| IMDG | Not regulated. |
| IATA | Not regulated. |

| Regulatory information | UN number | Classes | PG* | Label | Additional information |
|---|---|---|---|---|---|
| DOT Classification | Not regulated | - | - | - | - |
| TDG Classification | Not regulated | - | - | - | - |

PG* : Packing group

## 15. Regulatory information

United States

| | |
|---|---|
| HCS Classification | Not regulated. |
| U.S. Federal regulations | |

| | |
|---|---|
| TSCA 8(b) inventory | United States inventory (TSCA 8b): This material is listed or exempted. |
| TSCA 5(a)2 final significant new use rule (SNUR) | No ingredients listed. |
| TSCA 5(e) substance consent order | No ingredients listed. |
| TSCA 12(b) export notification | No ingredients listed. |
| SARA 302/304/311/312 | SARA 302/304/311/312 extremely hazardous substances: No products were found.<br>SARA 302/304 emergency planning and notification: No products were found.<br>SARA 302/304/311/312 hazardous chemicals: No products were found.<br>SARA 311/312 MSDS distribution - chemical inventory - hazard identification: No products were found. |
| Clean Air Act Section 112(b) Hazardous Air Pollutants (HAPs) | No ingredients listed. |
| Clean Air Act Depleting Substances (ODS) | Ozone This product does not contain nor is it manufactured with ozone depleting substances. |
| SARA 313 | No ingredients listed. |
| CERCLA Hazardous substances | No ingredients listed. |
| State regulations | |
| PENNSYLVANIA - RTK | No ingredients listed. |
| California Prop. 65 | This product contains no listed substances known to the State of California to cause cancer, birth defects or other reproductive harm, at levels which would require a warning under the statute. |
| International regulations | |
| Canada | |
| WHMIS (Canada) | Not controlled under WHMIS (Canada). |
| CEPA DSL | This material is listed or exempted. |

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the MSDS contains all the information required by the Controlled Products Regulations.

| | |
|---|---|
| International lists | Australia inventory (AICS): This material is listed or exempted.<br>China inventory (IECSC): This material is listed or exempted.<br>Japan inventory: This material is listed or exempted.<br>Korea inventory: This material is listed or exempted.<br>New Zealand Inventory of Chemicals (NZIoC): This material is listed or exempted.<br>Philippines inventory (PICCS): This material is listed or exempted |

## 16. Other information

| | |
|---|---|
| Label requirements | MAY CAUSE EYE IRRITATION. |
| Hazardous Material Information System (U.S.A.) | Health 0<br>Flammability 1<br>Physical hazards 0<br>Personal protection |

The customer is responsible for determining the PPE code for this material.

| | |
|---|---|
| National Fire Protection Association (U.S.A.) | Health 0<br>Flammability 1<br>Instability 0<br>Special |

Indicates information that has changed from previously issued version.

Notice to reader

While the information and recommendations in this publication are to the best of our knowledge, information and belief accurate at the date of publication, NOTHING HEREIN IS TO BE CONSTRUED AS A WARRANTY, EXPRESS OR OTHERWISE. IN ALL CASES, IT IS THE RESPONSIBILITY OF THE USER TO DETERMINE THE APPLICABILITY OF SUCH INFORMATION AND RECOMMENDATIONS AND THE SUITABILITY OF ANY PRODUCT FOR ITS OWN PARTICULAR PURPOSE. THE PRODUCT MAY PRESENT HAZARDS AND SHOULD BE USED WITH CAUTION. WHILE CERTAIN HAZARDS ARE DESCRIBED IN THIS PUBLICATION, NO GUARANTEE IS MADE THAT THESE ARE THE ONLY HAZARDS THAT EXIST.
Hazards, toxicity and behaviour of the products may differ when used with other materials and are dependent upon the manufacturing circumstances or other processes. Such hazards, toxicity and behaviour should be determined by the user and made known to handlers, processors and end users.

DISCLAIMER OF LIABILITY :The information in this SDS was obtained from sources which we believe are reliable. However, the information is provided without any warranty, express or implied, regarding its correctness. The conditions or methods of handling, storage, use or disposal of the product are beyond our control and may be beyond our knowledge. For this and other reasons, we do not assume responsibility and expressly disclaim liability for loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of the product. This MSDS was prepared and is to be used only for this product. If the product is used as a component in another product, this MSDS information may not be applicable.
